Habitat Conservation Planning in Oregon

Whiskey Creek HCP

Bald eagle (USFWS)

Bald eagle nest (USFWS).

Location	Adjacent to Netarts Bay Tillamook county
Acreage	Three lots 5.3 acres
Species Covered	Bald eagle
Background	The three residential lots that are to be developed border a bald eagle nest tree. Two of the lots are .5 acre each, and the third lot is 4.3 acres. The nest tree was discovered in 2001, but to date, bald eagles have not nested in the tree.
Benefits	In the development of these three lots, most large trees will be retained. Provisions in the HCP include measures to minimize disturbance to the eagles and their nest.
Permit	<i>Issued:</i> April 20, 2005 <i>Expiration:</i> April 20, 2030
